Requirements for Release of PHI to a Surviving Spouse or Next of Kin (RSA 332:1:13):

Under New Hampshire law, a decedent's medical record may be released to a properly identified surviving spouse or next of kin where there is no estate administration when: (a) there is no indication that this would be inconsistent with any prior expressed preferences of the deceased individual and no court of competent jurisdiction has ordered that the surviving spouse or next of kind not have access to those records; (b) the request is made within 3 years of the decedent's death; and (c) the surviving spouse or next of kin provides Health Information Services (HIS) with proper identification, a copy of the death certification, and a notarized affidavit representing that he/she is the surviving spouse/next of kin and confirming that there is no Executor or Administrator of the decedent's estate.

HIS will send records to only the surviving spouse or next of kin, not to third parties on behalf of the surviving spouse/next of kin.
