

The GI Mentor™ is a top of the line endoscopic medical simulator for the training of gastrointestinal upper and lower endoscopic procedures, offering a comprehensive library of modules with more than 120 tasks and virtual patient cases. The simulator provides multiple training opportunities with true to life patient cases offering realistic scenarios of clinical situations, ranging from simple diagnostic procedures to advanced ERCP procedures and Endoscopic Ultrasound (EUS) procedures.

Original Colonoscope and Duodenoscope have been customized to provide realistic simulation including tactile sensations and various endoscopic tools. The GI Mentor provides an excellent environment for practicing clinical procedures in a safe and realistic manner.
