PARTNERSHIP FOR ACADEMIC-CLINICAL TELEPRACTICE

Project ECHO®
University of New Hampshire

INNOVATIVE TELEPRACTICE

Join other MAT prescribers in NH-based Project ECHO in a case-based learning opportunity on Medications for Addiction Treatment. The UNH Partnership for Academic-Clinical Telepractice: Medications for Addiction Treatment Program (PACT-MAT) is enrolling MAT prescribers and their teams in the upcoming PACT-MAT Project ECHO®.
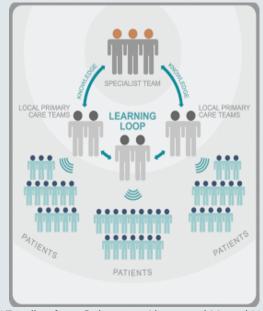

PACT-MAT Will:
- Increase your confidence in prescribing MAT
- Provide case-based feedback from faculty experts & peers
- Increase your knowledge and experience in SUD treatment and become part of a learning network

Who Should Apply:
- Join as a practice team, including but not limited to FQHCs, RHCs, CMHCs, etc.
- Rural, underserved, and waivered NP practices encouraged to apply

*require x-waivered NP or physician prescriber as part of team

Project ECHO - Moving Knowledge, Not Patients

Through technology-enabled collaborative learning, Project ECHO creates access to high-quality specialty care. Project ECHO uses:

☑ Evidence-based, case-based learning
☑ Knowledge-sharing network through a learning loop and all-teach, all-learn model

Will hold monthly ECHO sessions on the third Wednesday of every month starting April 17th, 2019

For more info, contact UNH Project ECHO at unh.projectecho@unh.edu
