A Cognitive Program for People with Epilepsy
What is HOBSCOTCH?

HOBSCOTCH is a self-management program designed to help people with epilepsy find ways to manage and cope with their cognitive problems in order to lead happier, more productive lives.

At this time, HOBSCOTCH is offered to adults with epilepsy at no cost.

What are cognitive problems?

Cognitive problems may include difficulty with memory, attention, thinking, and planning.

You Will Learn:

- How seizures and epilepsy can impact cognition and memory
- Skills to help you improve organization, disease management, and social interactions
- Ways to reduce stress and improve your quality of life

You Will Receive:

- One on one sessions with a certified HOBSCOTCH Memory Coach
- HOBSCOTCH Workbook
- Memory Tool Box of Strategies
- Day Planner & Seizure Diary
- Relaxation exercises

Components of HOBSCOTCH:

1. Epilepsy Education
2. Self-Awareness Training
3. Problem Solving Therapy
4. Memory Strategies
5. Mindfulness
